

WEATHERING GRADE STEEL TUBE FROM BULL MOOSE: THE LOW-COST, MAINTENANCE-FREE ALTERNATIVE FOR OUTDOOR APPLICATIONS.

With the rising cost of galvanized steel, it's good to know there's a solid substitute: **Weathering Grade steel tube** from Bull Moose.

Compare this stock to COR-TEN® and other ASTM A847 options, and you'll find that our Weathering Grade steel delivers equivalent performance for heavy-weather environments...at a much lower cost.

Over time, the surface of this alloy steel develops a stable, light-brown patina that protects it from corrosion—and eliminates the need for painting and re-painting. Its durability and 50KSI strength make it ideal for applications such as walkways, bridges, railings, and other structures that are directly exposed to the elements.

The steel's weathered finish provides a natural look, and because it's permanent, it doesn't require VOC paint or blasting—both of which can harm the environment.

COR-TEN is a registered trademark of U.S. Steel.

HSS WITH WEATHERING STEEL

- Produced per ASTM A847 (which mirrors ASTM A500 plus atmospheric-corrosion-resistant steel).
- 50KSI min. yield, 70KSI min. tensile, 19% min. elongation.
- General application: bridges, utility/light poles.
- Stock sizes:
 - 3/16"
 - 1/4"
 - 3/8"(Custom sizes: inquire on lead time)
- Lifetime savings...thanks to:
 - NO sand blasting
 - NO painting
 - NO maintenance

LEADING THE HERD

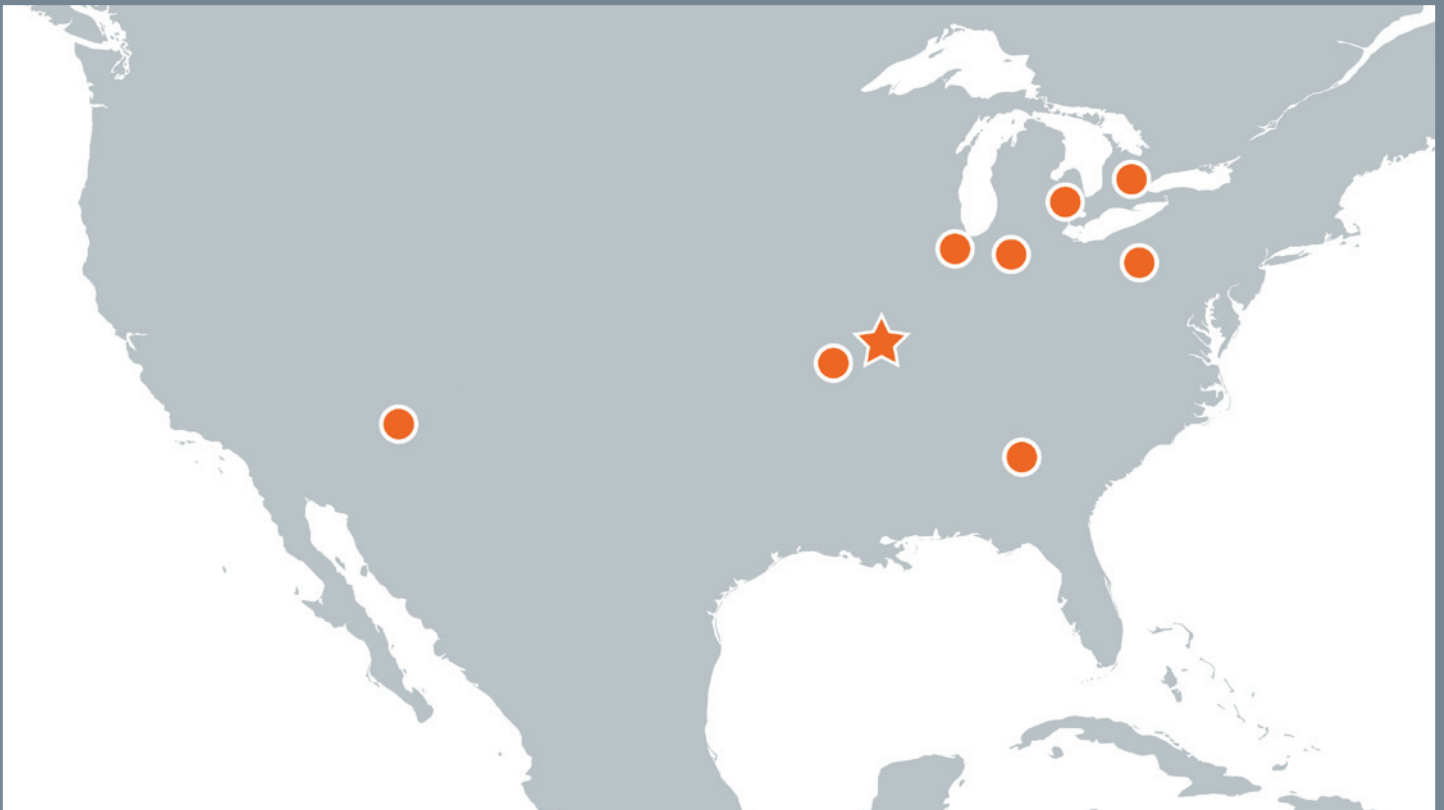

Founded in 1962, Bull Moose Tube has been delivering products of enduring quality for more than half a century.

Their mechanical stock includes squares ranging from .5 to 3 inches, rectangles from 1x1.5 to 2x3 – in a broad assortment of gauges. For projects requiring heavy-duty structural pipe, Bull Moose provides diameters of .5 to 4 inches, in all standard schedules.

With eight North American manufacturing and warehouse facilities, Bull Moose has the products you need, when you need them.

You need strength and reliability. You need availability. You need Bull Moose Tube.

EIGHT WORLD-CLASS LOCATIONS DELIVERING BEST-IN-CLASS PRODUCTS
