- Widest variety of custom sizes and lengths—including metric sizes
- Pickle & Oil and Dry Pickle & Oil options

OTHER BENEFITS/SERVICES:

- Leading availability and fastest delivery through seven North American plants
- Special packaging
- Special rolling options
- Broad range of finishing services
- Extensive engineering and product development capabilities

LEADING THE HERD

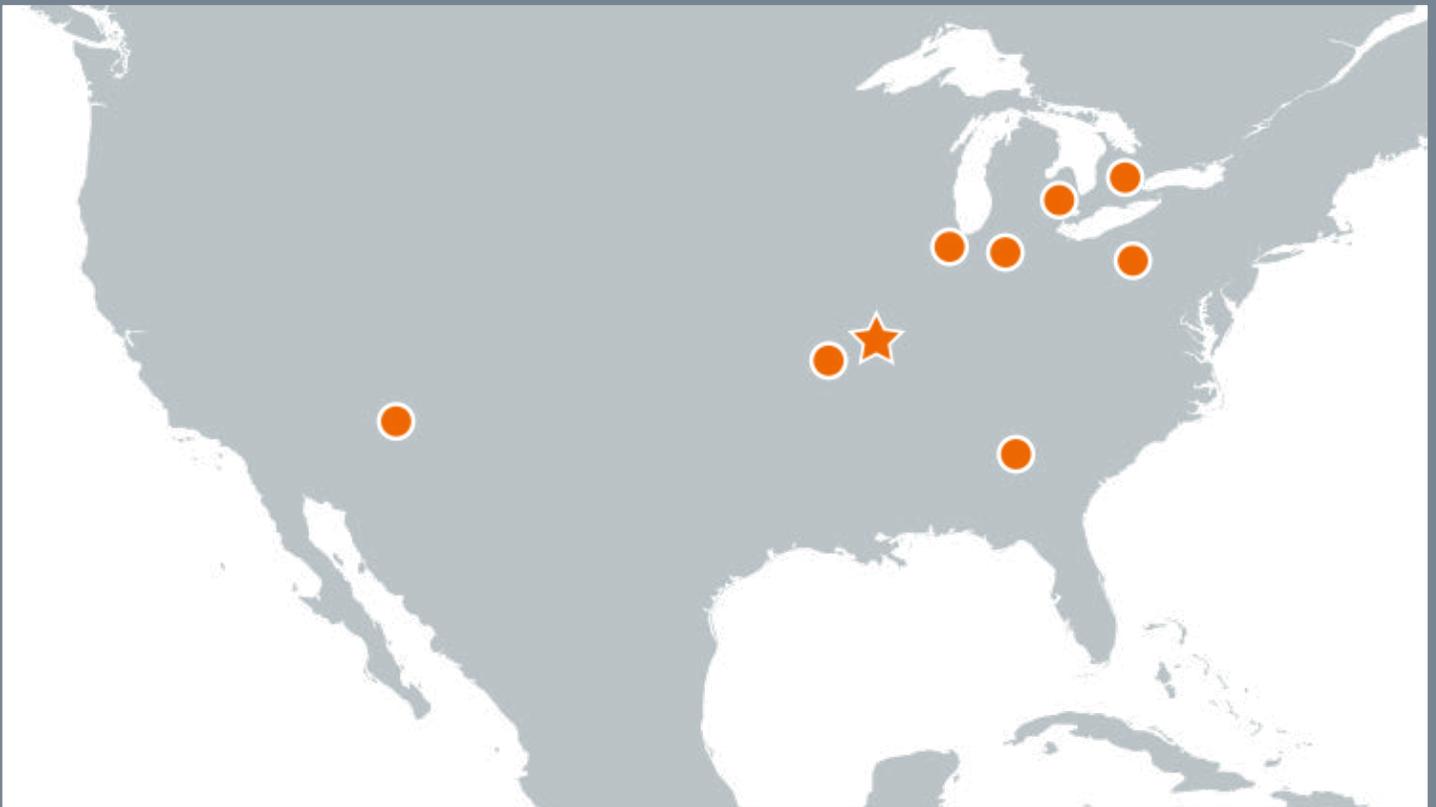

Founded in 1962, Bull Moose Tube has been delivering products of enduring quality for more than half a century.

Their mechanical stock includes squares ranging from .5 to 3 inches, rectangles from 1x1.5 to 2x3 – in a broad assortment of gauges. For projects requiring heavy-duty structural pipe, Bull Moose provides diameters of .5 to 4 inches, in all standard schedules.

With eight North American manufacturing and warehouse facilities, Bull Moose has the products you need, when you need them.

You need strength and reliability. You need availability. You need Bull Moose Tube.

EIGHT WORLD-CLASS LOCATIONS DELIVERING BEST-IN-CLASS PRODUCTS
